## Introduction

The Office of Student Financial Assistance (OSFA) is an office within the Maryland Higher Education Commission (MHEC) responsible for the administration of 24 State financial assistance programs. These programs are designed to improve access to higher education for needy students; encourage students to major in areas of great economic need to the State, such as teaching and nursing; and encourage Maryland's brightest students to attend college in the State. Maryland students use the assistance from these programs at community colleges, independent colleges and universities, private career schools, and the State's public four-year campuses. Programs are classified in one of five categories:

- Need-based Aid Programs
- Legislative Programs
- Merit-based Programs
- Career and Occupational Programs
- Unique Population Programs

Many of our State grants and scholarships combine aspects of several of these categories in that they may require a specific grade point average, require a service obligation and have income limitations. However, programs are classified by the predominant awarding criteria and program goal. With few exceptions Maryland residency is required for all State financial assistance and students are required to attend a college in Maryland. The majority of State financial assistance programs are aimed at full-time undergraduate students, with only a small percentage of the funds going to part-time and graduate students. Descriptions of each financial assistance program by category can be found in Appendix I.

In addition to administering State financial assistance programs, OSFA has been charged with expanding its outreach activities to increase college awareness and access with particular emphasis on the State's lowest income population. OSFA, in collaboration with other organizations in the State, coordinates and conducts college awareness and outreach activities to ensure that students and parents are well informed of State financial assistance opportunities and that students have college preparation information. This is critical to ensuring that every Maryland citizen has access to higher education and can contribute to the further development of Maryland's economic health and vitality.

## Summary of State Financial Assistance Programs and Awards for FY 2004

In fiscal year 2004, 44,851 financial aid awards were made totaling \$80.1 million. The average award was \$1,786. A breakdown of program expenditures, number of awards issued, and average award for each program can be found in Table 1 below. Program expenditures are sub-totaled by category.

**Table 1. State Financial Aid Program Expenditures**  
**Number of Awards and Average Award: FY 2004**

Program	Dollars	Number of Awards	Average Award
<b>Need-Based Aid</b>			
Guaranteed Access Grant	\$ 7,585,250	1,071	\$ 7,082
Educational Assistance Grant	35,360,517	20,201	1,750
Campus-Based Educational Assistance Grant	\$1,968,985	1,686	1,168
Part-Time Grant	1,343,529	3,195	421
Graduate and Professional	241,284	224	1,077
<b>Sub-Total</b>	<b>\$ 46,499,565</b>	<b>26,377</b>	<b>\$ 1,763</b>

Note: Figures reflect actual awards made to students in FY 2004; figures may reflect some funds that were carried forward from prior year

Exhibits 1 and 2 provide the distribution of program funds by category and higher education segment. Almost 60% of the funds expended for State financial assistance in fiscal year 2004 was for need-based aid programs. Over two-thirds of program funding was awarded to students enrolled at a four-year public institution.

**Exhibit 1. Distribution of State Financial Aid Funds by Category FY 2004**

**Exhibit 2. Distribution of State Financial Aid Funding by Higher Education Segment FY 2004**

Exhibits 3 and 4 provide the distribution of program recipients by category and higher education segment. Almost 60% of program recipients received a need-based grant or scholarship. Twenty-four percent received a Legislative Scholarship and 12% a Career and Occupational Scholarship. Almost 60% of the recipients of State financial assistance attended four-year public institutions.

## Summary of College Awareness and Outreach Activities

Educating Maryland residents about State financial assistance programs and higher education opportunities is a core component of MHEC's efforts to promote access to postsecondary education. OSFA has made concerted efforts over the last year to enhance college awareness and outreach activities to reach this goal. Several outreach efforts have been employed using a variety of means including workshops and presentations, publications, direct mail and web-based initiatives. These efforts are in collaboration with high schools, community groups, colleges and universities, faith-based organizations, and the media.

### Workshops and Presentations

OSFA participates in numerous college night programs and financial aid workshops. Knowing that funds would be limited in FY 2004 for outreach activities, OSFA began discussions in the spring of 2003 to partner with the community colleges to provide financial aid nights at high schools throughout Maryland. OSFA provided the Financial Aid Directors at the community colleges with a copy of its financial aid presentation and they incorporated this presentation into the one that they would normally present at similar events. This collaboration has been quite successful. The number of outreach presentations has continued to increase in FY 2004. (Exhibit 5) This has enabled OSFA to honor speaking engagements which it may not have been able to staff. In addition, the more comprehensive presentation that a financial aid officer can provide offers the audience a more complete picture of the financial aid process. OSFA has expanded this initiative in FY 2005 to include the four-year public and independent institutions.

Financial aid workshops and presentations are held in many different venues such as guidance counselor workshops, financial aid nights at high schools, college fairs, college open house programs, and legislative workshops. Over half of the workshops and presentations were financial aid nights held at high schools across the State (Exhibit 6). When scheduling outreach activities, emphasis is placed on schools in economically disadvantaged areas. To better serve this population of students, staff works in collaboration with community groups and faith-based organizations.

**Exhibit 5. OSFA Outreach Presentations FY 2002 to FY 2004**

## Exhibit 6. OSFA Outreach Activities By Category

### Publications

In addition to exploring ways to increase the number of workshops and presentations, OSFA looked closely at its past outreach efforts to determine their effectiveness, whether or not they should be continued, and populations not being reached. We discussed our outreach material with an interagency outreach group and the Financial Assistance Advisory Council. Through these discussions we determined that the *Student Guide to Higher Education and Financial Aid In Maryland* is an important piece that informs students of all ages about MHEC's financial aid programs. The Academic Calendar produced recently has been very well received and greatly assists high school seniors in making their senior year productive in applying for and selecting a college. Both the interagency outreach group and the Financial Assistance Advisory Council felt that the least informative brochure was "Cash for College" used to inform high school juniors that State money for college may be there next year when they are ready to apply. The unanimous feeling among the group members was that students need to be informed at a younger age of the importance of academic

preparation in high school and the availability of financial aid opportunities. It was suggested that we produce materials for students in the lower grades. Therefore, we have discontinued the "Cash for College" brochure that has been sent to high school juniors and have begun working with MHEC's Grants Office to focus our efforts on the production and distribution of academic preparation materials to assist 8<sup>th</sup> and 9<sup>th</sup> grade students. The Grants Office receives GEAR UP funding and oversees the College Preparation Intervention Program. Both a student piece and a parent piece have been developed and distributed to middle schools, high schools and early intervention sites. The Grants Office is now in the process of developing a publication for 5<sup>th</sup> grade students. We plan to distribute this publication in FY 2005. OSFA and the Grants Office will continue to work together to produce more age appropriate college awareness materials.

A population of students identified as not being effectively reached is Maryland's growing Hispanic population. OSFA is very excited to have the opportunity to partner with USAFunds, Maryland's loan guarantor, to produce the *Student Guide to Higher Education in Maryland* in Spanish. Distribution to high schools, colleges and universities, and libraries is intended for winter 2005. OSFA hopes this is just the beginning of its growing partnership with USAFunds and plans to discuss with them the possibility of producing other age appropriate materials and Spanish publications.

Publications being produced for distribution to middle and high schools, colleges and universities, and students are listed below with a brief description.

*Student Guide to Higher Education and Financial Aid In Maryland* in English and Spanish provides students with information about more than 50 colleges and universities in Maryland, scholarships and grants to help students pay for college, programs that offer tuition assistance or scholarships, and private career schools. This publication is distributed to high school guidance counselors annually for distribution to high school seniors. The guide is also distributed to high school early intervention programs, public libraries, colleges and universities, private career schools, and out-of-state high schools that have a significant enrollment of Maryland residents.

*College 411* a quick guide to State financial aid programs. The brochure will be used at college fairs throughout the State and during financial aid workshops.

*An Academic Year: Preparing for College* developed for high school seniors as a month by month guide of activities for college preparation and a guide for choosing the best school for their future goals.

*What's Next After High School* to provide 8<sup>th</sup> and 9<sup>th</sup> grade students with information on preparing for college, from taking the right classes to participating in certain activities in 9<sup>th</sup> through 12<sup>th</sup> grade.

*Preparing Your Child For College* designed to inform parents of the importance of assisting children in furthering their education, graduation requirements, and how to pay for college.

## Direct Mail

To better coordinate the college awareness and outreach efforts employed by MHEC, **College Preparation/State Financial Assistance Outreach Kits** were developed and distributed to all public and private high school guidance counselors, early intervention sites, legislators and other interested organizations in December 2002. Based on outreach kit evaluation forms returned by the counselors, the kit was very well received. We did find, however, that the video was not as useful as anticipated. For this reason, we are no longer providing videos each year. Updates of other materials are being produced and provided annually.

As in past years, the *Student Guide to Higher Education and Financial Aid in Maryland*, program applications, and program overview brochures were distributed to all colleges and universities, public and private high schools, public special schools, early intervention sites, legislators, and requesting organizations. In addition, thousands of application packets were mailed to individuals requesting information. Enclosed in the application packets are the materials listed above, a program contact sheet with phone numbers and email addresses for each program administrator, and a sheet listing all programs with applications on MHEC's website.

## Web-based Initiatives

A number of web-based initiatives have been implemented. Last year MHEC's website was redesigned to make it more user friendly for students, parents, and counselors to find information about financial assistance. In the "For Students and Parents" section, you will find:

- applications in PDF format, conditions of award statements for renewal awards, information and descriptions of all State financial assistance programs available to Maryland residents;
- an "[On-Line Scholarship Search](#)" that will enable a student to determine which State financial assistance program he/she may be eligible for by answering a series of questions on enrollment status, major, and willingness to fulfill a service obligation among others;
- links to other financial aid sites and state colleges and universities; and,
- "[Student Inquiry](#)" that allows students to check the status of applications and awards on-line from initial application through verification; students can also print a copy of their award letter.

By clicking on "Student Financial Assistance", in addition to the information above, students will have access to:

- "[Paying for College](#)" information; and
- "[College Aid Calculator](#)", which is used to estimate Expected Family Contribution (EFC) for both public and private colleges, print an EFC report; and compute education loan payments for Stafford, PLUS, Perkins, and other loan programs. It will also calculate an estimated Educational Assistance Grant for Maryland residents who plan to attend a Maryland institution.

In the "For Counselors" section of the website, we have placed materials specifically for guidance counselors and financial aid officers. Guidance counselors can click on "Advisor Tools" to gain access to a frequently asked questions sheet on State financial aid programs, program applications, request a financial aid presentation at their school, or find a calculations sheet to assist with calculating Grade Point Averages (GPA) for the Distinguished Scholar Program. Financial aid officers can access the Financial Aid Officer's Manual to assist with processing awards, program applications, and find the status of a student's award.

The new website has been very well received and we have seen an increase in the number of applications that have been printed from our website and submitted. In FY 2004, OSFA received 42% of its applications from individuals printing it from the website. So far in FY 2005, 82% of the applications submitted have been printed from the website.

### **Funding Initiatives**

Cost containment measures taken in FY 2004 did reduce the number of overall awards made in State financial aid programs compared to FY 2003. However, appropriate funds management enabled OSFA to minimize the impact on need-based aid. The number of Educational Assistance Grant (EAG) awards increased by 297 and the average award increased by \$134 accommodating some level of tuition and fee increases for the year. OSFA was also able to implement the Campus-based EAG with \$2 million in carry forward funds.

When determining an institution's cost of attendance to be used in the EAG awarding formula, standard allowances of differing amounts are applied for students living on campus, students living with parents, and students living off campus to help offset personal expenses associated with attending college. Upon review of these standard allowances, it was found that they had not been adjusted to reflect more recent costs. To assist those students who are most likely to incur greater personal expenses, MHEC made a commitment to increase the standard allowances for students living with parents and students living off campus. Due to funding constraints, these adjustments or increases are being implemented incrementally. In FY 2004, the standard allowance for students living off campus increased from \$4,000 to \$4,500.

Although program appropriations were held constant or reduced in FY 2004, an \$11.2 million increase in funding for need-based aid was provided in FY 2005; \$4.1 million of which was diverted from the HOPE Scholarship programs. It is anticipated that this movement of funds from HOPE to need-based aid will continue over the next three years until the HOPE programs are fully phased out. An additional \$1 million was also provided for the Janet L. Hoffman Loan Assistance Repayment Program to assist nurses and teachers working in Title I Schools and those designated for improvement with paying off their school loans.

### Significant Activities

Although appropriations remained flat or were reduced in FY 2004, OSFA continued to work over the last year to implement new initiatives, reduce program complexity, streamline programs, and create efficiencies. OSFA has implemented the following:

- **Decentralized Campus-based EAG program:** MHEC implemented the campus-based EAG program with the use of carry forward funds. This campus-based program assists needy students who due to extenuating circumstances may have missed application deadlines. These students could be first-generation college students, students from low-income families, or students lacking family support structures. Once a student receives a campus-based award, it is intended that with appropriate counseling from the institution's financial aid office, the student will become aware of financial aid deadlines and file the Free Application for Federal Student Aid (FAFSA) by the March 1 deadline. If this is done, the student's award will be renewed in the next academic year as an Educational Assistance Grant. In FY 2004, 1,686 students received a campus-based award; 573 of the students received an EAG as a renewal student in FY 2005.
- **On-line billing rosters (Phase I):** The first phase of on-line billing rosters has been implemented enabling institutions to download award rosters and billing rosters from a secure website for processing. An "Institutional Submission Tool" or an Access database has been developed to assist schools with the processing of billing rosters. Schools may either use this Access database or develop their own software program to process and verify student eligibility for State financial aid awards. Once awards are verified, institutions upload the billing roster files back to MHEC's secure website for internal processing. This has greatly improved what was a manual, paper intensive process.
- **New procedure to verify family income for financial aid purposes for academic year 2004-2005:** OSFA has further streamlined the verification process by working collaboratively with the institutions of higher education to verify family income for financial aid purposes. Before this change, OSFA and the institutions were duplicating verification efforts, as both were requesting income related documentation. Now OSFA relies on the schools to provide appropriate documentation to verify family income for selected students. This benefits the institutions and the students by providing for more accurate and stable awards, fewer late changes to awards (after the fall semester starts), and eliminating confusion since students will no longer need to send income related information to two different places. With this procedural change, the number of students verified has increased by 42%.
- **Legislative Scholarship reports on CD Rom to legislators:** OSFA began working with the Office of Legislative Services Office of Information Systems over the summer to provide Student Application Information Sheets, Applicant Rosters and Recipient Rosters to legislators on CD-Rom. In prior years these lengthy reports were provided in paper form only at different times throughout the year. Providing them in an electronic format will enable office staff to import the file into a spreadsheet to manipulate the file as necessary to create reports, mail merges, and labels. With paper reports, staff must retype

information to perform these functions. These reports are now being provided to legislators who have selected this option.

- **New version of award roster:** A new award roster has been created that flags students whose awards have changed since the last roster was downloaded. Award rosters are run weekly and placed on MHEC's secure website for downloading. The award roster lists all students who attend a particular school and have a State award. Prior to this change, financial aid offices would need to compare each student's information with their database to determine if a change occurred.
- **Distinguished Scholar Grade Point Average calculation sheet:** Each year when selecting students for the Distinguished Scholar program, guidance counselors must calculate unweighted GPAs for core courses only. These calculations have been done by hand and then sent into OSFA. To assist guidance counselors with this process, a GPA calculation worksheet has been developed with formulas which can be downloaded from MHEC's website. This has improved the timeliness and accuracy of these calculations.

Fiscal Year 2005 activities underway:

- **On-line billing rosters (Phase II):** The next phase of this project is the automation of OSFA's processing of awards. Programming is being done on this phase now. We hope to begin testing during the spring with final implementation and testing to occur in June 2005. This should greatly diminish the amount of time it takes institutions and OSFA to process and verify State financial aid awards and improve the timeliness of payments to institutions.
- **On-Line award acceptance:** OSFA began working on this initiative in FY 2004. When implemented it will enable a student to accept financial aid awards on-line and not require the mailing of the acceptance letter to the office. For those programs that require promissory notes, an individual will be able to print the promissory note from the website, complete it, and submit it to OSFA. OSFA has recently entered the testing phase of this initiative and hopes to begin using on-line award acceptance during the upcoming academic year.
- **Janet L. Hoffman Loan Assistance Repayment Program and Nursing Scholarship Program:** To address the nurse faculty shortage, guideline changes were made to expand program eligibility requirements to include individuals working as nurse faculty members. Similar changes are also being considered for the Nursing Scholarship Program.
- **Teach for the Health Of It Initiative:** This initiative is being implemented in collaboration with the Department of Labor, Licensing and Regulation (DLLR). DLLR received a federal grant to increase nursing faculty working in nursing programs across the State. This is being done by providing scholarships to individuals currently working as nurses to assist them in going back to school to take appropriate courses to be nurse faculty members and by providing scholarships to individuals as an incentive to get their

degree in nursing. OSFA is administering both scholarship programs. It is anticipated that awards will be offered during the spring 2005 semester.

- **Implementation of the William Donald Schaefer Scholarship Program:** This new program provides opportunities for young people to attend institutions of higher education so that they may prepare for and pursue careers in public service. Students who perform well academically and agree to use their training in public service qualify for scholarship assistance. The Advisory Council has been appointed and a meeting has been held to discuss guidelines for the program. No funding has been provided for the program at this time.
- **On-line applications:** OSFA has begun planning for on-line applications, which will enable a student to fill out a financial aid program application and submit it on-line.
- **Further program automation:** OSFA is working to further automate smaller financial aid programs that are currently using manual processes to issue awards.

**Maryland Financial Assistance Program Funding and  
Recipient Distribution by Postsecondary Institution**

This section of the Annual Report provides data on the distribution of funding and recipients by program for each postsecondary institution in Maryland. Sub-totals are provided by higher education segment and program category. Tables are compiled in the following order:

Table II. Summary of Financial Aid Funds and Recipients by Higher Education Segment and Program Category: FY 2004

Table IIIa. State Financial Aid Funds FY 2004: Private Career Schools

Table IIIb. State Financial Aid Recipients FY 2004: Private Career Schools

## Appendix I

### **Overview of State Financial Assistance Programs**

#### **Need-based Aid Programs**

##### **Educational Excellence Awards**

The Educational Excellence Awards program is the State's largest need-based program. It has two components: the Educational Assistance Grant and the Guaranteed Access Grant.

The Educational Assistance Grant is targeted to low- to moderate-income families and is based on financial need. Financial need is based on the cost of the college the student attends (includes: tuition and fees, room and board, equipment, transportation, personal expenses), the Expected Family Contribution (based on income, family size, number of children attending college), other grant or scholarship awards, and the Federal Pell Grant (if any). Financial need is calculated as follows:

Cost of Attendance

- Expected Family Contribution
- Applicable Other Grants and Scholarships (if any)
- Federal Pell Grant (if any)
- = Financial Need

The amount of the Educational Assistance Grant (EAG) is 35% of the calculated financial need, with a \$400 minimum and \$2,700 maximum award. The statutory maximum for this grant is \$3,000, however, funding has not been provided to increase awards to this level. A portion of the Educational Assistance Grant is now campus-based. These funds are given to a higher education institution for distribution to assist needy students who due to extenuating circumstances may have missed application deadlines. These students could be first-generation college students, students from low-income families, or students lacking support structures.

The Guaranteed Access Grant is for very low-income high school students and requires a 2.5 high school grade point average. The Guaranteed Access Grant covers 100% of the student need up to a maximum of \$12,800.

A College Readiness Outreach program was established in statute in 2002 to allow ninth or tenth grade students to prequalify on the basis of financial need for a Guaranteed Access Grant. However, funding has not been provided to implement the program.

### Part-Time Grant

The Part-Time Grant provides up to \$1,000 for part-time, needy, degree-seeking, undergraduate students and students who are simultaneously enrolled in a secondary school and an institution of higher education. Funds are allocated to institutions of higher education for distribution based upon the number of undergraduate part-time students with financial need enrolled in degree-granting programs.

### Graduate and Professional Scholarship

The Graduate and Professional Scholarship provides up to \$5,000 to full-time and part-time graduate and professional students in nursing, pharmacy, dentistry, law, medicine, veterinary science, and social work. This program became decentralized beginning in academic year 2002-2003. Funds are allocated to eligible institutions that then select recipients.

## Legislative Programs

### Senatorial Scholarships

Each member of the State Senate may award \$34,500 in scholarships each year. Combined with continuing awards, annual funding per legislative district totals \$138,000. Individual awards range from \$400 to \$2,000 per year at approved Maryland postsecondary institutions. Students must demonstrate financial need. Awards can be used out-of-state under certain circumstances.

### Delegate Scholarships

Each member of the House of Delegates may award scholarships to students attending approved Maryland postsecondary institutions. The minimum award is \$200. The maximum award may not exceed the cost of tuition and fees at the highest University System of Maryland campus excluding UMUC and UMB (\$7,950 for academic year 2004-2005). Awards can be used out-of-state under certain circumstances.

## **Merit-based Programs**

### **Distinguished Scholars Program**

The Distinguished Scholars Program is designed to keep exceptionally talented students in Maryland. It provides 350 students an award of \$3,000 each year for up to four years. National Merit Scholarship and National Achievement Scholarship finalists are offered the scholarship if they attend a Maryland college. Maryland schools can nominate five juniors to audition in visual arts, instrumental music, vocal music, dance and drama. Individuals with a cumulative unweighted grade point average of at least a 3.7 may also apply. Awards are based on a ranking of applicants that combines grades and standardized test (SAT1, PSAT, or ACT) results.

### **Distinguished Scholar Teacher Award**

This program provides an additional award of \$3,000 per year to encourage recipients of the Distinguished Scholar award to teach in a Maryland public school. Recipients are required to teach one year for each year a grant is received.

## **Career and Occupational Programs**

### **Hope Scholarship Program**

The Hope Scholarship Program is comprised of four programs: Maryland Science and Technology Scholarship, Maryland Teacher Scholarship, Maryland HOPE Scholarship, and HOPE for Nontraditional Students - Community College Transfer Scholarship. The Maryland Science and Technology Scholarship provides awards to qualified students who are pursuing a degree in designated fields in computer science, engineering, physical sciences, biological sciences, and mathematics. The Maryland Teacher Scholarship Program provides scholarships to students pursuing a career in teaching. The Hope Scholarship provides awards to students in the liberal and fine arts as well as selected other programs. The Community College Transfer Scholarship is open to students of all majors. All four programs require a "B" average in high school or college depending on status at the time of application. The Community College Transfer Scholarship and the Hope Scholarship have an income cap of \$95,000. Science and Technology and Hope Scholarship awards are \$3,000 for students studying at a four-year college or university, and \$1,000 for students studying at a two-year college. Recipients of the Maryland Teacher Scholarship receive \$5,000 to attend a four-year college and \$2,000 to attend a two-year college. Community College Transfer students receive \$3,000 at their 4-year institution. Recipients are required to work in Maryland one year for each year of assistance received.

### Sharon Christa McAuliffe Memorial Teacher Education Award

The Sharon Christa McAuliffe Memorial Teacher Education Award provides assistance to students pursuing a career in public school teaching in an area of critical shortage. Students must have a 3.0 grade point average and have completed at least 60 credit hours. The maximum award may not exceed the amount of tuition, mandatory fees, and room and board for a student at the University System of Maryland campus with the highest cost of attendance, excluding UMUC and UMB (\$15,900 for academic year 2004-2005). Recipients are required to work in Maryland one year for each year of assistance received.

### Child Care Provider

The Child Care Provider Program provides scholarships to students pursuing a career in child care services. Awards are provided for tuition up to \$2,000 per year and recipients are required to provide child care services in Maryland one year for each year a grant is received.

### Developmental Disabilities, Mental Health, Child Welfare, and Juvenile Justice Workforce Tuition Assistance Program

This program provides funds to students pursuing an undergraduate or graduate degree in a human services field. Students will be required to work at an eligible employment site in a human services occupation for a specified number of hours dependent on the total amount of funds received. Award amounts may be up to \$3,000 annually.

### Nursing Scholarship

The Nursing Scholarship provides scholarships to students pursuing a career in nursing. Awards are provided for tuition and mandatory fees up to \$3,000 annually and recipients are required to serve in a nursing shortage area in Maryland one year for each year a grant is received. A living expenses grant of up to \$3,000 annually is available based on need. Nursing students enrolled in a program that includes mandatory summer academic sessions may be awarded the amount of tuition and fees not to exceed \$4,500 per calendar year.

### Physical and Occupational Therapists and Assistants Scholarship Program

The Physical and Occupational Therapy Program provides scholarships to students pursuing licensure as a physical therapist, occupational therapist, physical therapy assistant, or occupational therapy assistant. Awards are provided for tuition and fees of up to \$2,000 annually and recipients are required to work in certain physical or occupational therapy fields for one year for each year a grant is received.

### *Firefighters, Ambulance and Rescue Squad Member Tuition Reimbursement Program*

The Firefighters, Ambulance and Rescue Squad Member Tuition Reimbursement Program provides tuition reimbursement for firefighters, ambulance and rescue squad members who serve a Maryland community while taking college courses and continue to serve for another year after completing the courses. The courses must be in fire service technology or emergency medical technology. Awards may be up to \$6,130 for academic year 2004-2005.

### *Janet L. Hoffman Loan Assistance Repayment Program (LARP)*

The Janet L. Hoffman Loan Assistance Repayment Program (LARP) provides awards to individuals working in specified fields to assist in the repayment of educational loan debt. LARP is comprised of three components. The LARP General program provides up to \$7,500 annually for lawyers, nurses, nurse faculty, physical and occupational therapists, social workers, speech pathologists, and teachers in Title I Schools or those designated for improvement who work for Maryland State, local government or nonprofit agencies. The Loan Assistance Repayment Program Primary Care Services (LARP-PCS) provides between \$25,000 and \$30,000 annually for primary care physicians and primary care medical residents who serve as full-time primary care physicians in underserved areas in Maryland for two to four years. The Maryland Dent-Care Loan Assistance Repayment Program (MDC-LARP) provides \$23,000 annually to dentists who maintain at least 30% of their patient population as Maryland Medical Assistance Program recipients.

### *William Donald Schaefer Scholarship Program*

The William Donald Schaefer Scholarship Program provides opportunities for young people to attend institutions of higher education so that they may prepare for and pursue careers in public service. Students who perform well academically and agree to use their training in public service qualify for scholarship assistance.

## Unique Population Programs

### Jack F. Tolbert Memorial Student Grant Program (Tolbert Grant)

The Tolbert Grant Program provides awards of up to \$300 to students attending a private career school. Statutory award maximum is \$400. Awards are made based on need and students must be enrolled in at least 18 clock hours per week.

### Edward T. Conroy Memorial Scholarship Program

The Edward T. Conroy Memorial Scholarship Program provides up to the full cost of tuition and fees based on the University System of Maryland campus with the highest cost of attendance excluding UMUC and UMB (\$7,950 for 2004-2005). To be eligible a student must be:

- a son or daughter of a member of the US Armed Forces who died or was 100% disabled as a direct result of military service;
- a veteran who suffers, as a direct result of military service, a disability of 25% or greater and has exhausted or is no longer eligible for federal veterans' educational benefits;
- a POW/MIA of the Vietnam Conflict or his/her son or daughter;
- a son, daughter, or surviving spouse (who has not remarried) of a State or local public safety officer or volunteer who died in the line of duty;
- a State or local public safety officer or volunteer who was 100% disabled in the line of duty, or
- a son, daughter, or surviving spouse of a victim of the September 11 terrorist attack.

### Tuition Waiver for Foster Care Recipients

The Tuition Waiver for Foster Care Recipients provides tuition waivers for those students residing in a foster care home at the time of their high school graduation or upon completion of their GED or those residing in a foster care home on their 14<sup>th</sup> birthday who were adopted out of foster care after their 14<sup>th</sup> birthday. The Department of Human Resources confirms student eligibility for the waiver. All other forms of grant or scholarship financial assistance must be applied before the waiver (Pell, State financial aid programs, etc). Students must attend a public institution to be eligible.
